

Blue Room Themes 2017-18

In social studies we will focus on: geography, the fifty states and their capitals, our government and the election process, Africa's connection to America, Lewis and Clark, pioneers, Westward Expansion and the Industrial Revolution, slavery, and the Civil War.

In science we will focus on: scientific investigation, biomes, cells, taxonomy, the human body, the building blocks of matter, geology, natural disasters, and the solar system or the oceans (if time allows).

These themes are flexible and may change to meet the needs of the students.

August

- Major Biomes of the World
- Geography

September

- Plant and Animal Cells
- 50 States and Capitals

October

- Taxonomy (animal kingdoms)
- US Constitution and Election Process
